SISTEMAS DE VENTANAS Y PUERTAS DE PVC

NUEVA SERIE DE PERFILES 2023

www.maxwinchile.cl

info@maxwinchile.cl

+56 950 774 916

MAXWIN was marked in polymer door and window sector in export markets with NUR IS PVC's big experience which is one of the leader PVC company of Turkey since 1998.

Our company makes production with owning the latest technology by German production lines from 2012 in new facilities of 76.000 m2 in Adana Organize Sanayi district, our products are faced with intense interest in international markets under MAXWIN mark.

We are exporting our products to ASIA, EUROPA, MIDDLEAST AND AFRICA's several countries with joining to the international exhibitions with MAXWIN brand and following fast changing quality in global market, technology and product types by intense R&D working. Our housing projects continuous in several provinces and thousand residences of Turkey with our ASYAPEN brand by continual growing of our seller network we provide customer service and quality in every spot/side of country.

Why **maxwin** Window?

High Quality

- Completely harmless to humans.
- Excellent sound insulation properties.
- Perfect thermal insulation.
- Will increase the value of your home.
- Very durable.

High Performance

- Resistant to environmental conditions.
- Resistant to termites.
- Does never rot, rust or corrode.
- Excellent burglary resistance
- Efficient for many years.

Elegant Design

- Resistant to environmental conditions.
- Resistant to termites.
- Does never rot, rust or corrode.
- Excellent burglary resistance
- Efficient for many years.

Environment Friendly

PVC window profile systems are made from ecologically friendly materials in terms of less pollutant materials than wood or aluminum.

Polymer is recyclable and so there is no material lost as all waste goes back into the recycling process.
